Colorado Department of Corrections

Annual Statistical Report
Fiscal Year 1982-1983

Chase Riveland
Executive Director

PREFACE

This Annual Statistical Report from the Office of Research and Reporting, compiled by Senior Researcher, Scott Hromas, presents a statistical presentation of the characteristics of offenders admitted to, incarcerated in, and released from the Colorado Department of Corrections. Based upon the types of requests normally received, we have compiled the most frequently requested information in this publication in the hope that both the public and private sector will have a better understanding of the characteristics and management of Adult Offenders. We are hopeful that this effort will be informative, and welcome inquiries for statistics that are not presented in this report. Data inquiries should be addressed to:
